EDUCATION

Rajkiya Engineering College Sonbhadra (AKTU)

Bachelor of Technology in Computer Science and Engineering

Sonbhadra, UP

2022 - 2026

EXPERIENCE

Web Developer

June 2024 – Present

Rajkiya Engineering College Sonbhadra

Sonbhadra, UP

- Actively participated in team discussions, fostering innovative problem-solving sessions, and engaging in thorough code reviews. Gained invaluable insights and constructive feedback.
- Collaborated with team members to implement front-end interfaces with **React** and back-end functionalities using **Node.js** and **Express.js**.
- Assisted in optimizing website performance and resolving technical issues to enhance user experience.

PROJECTS

Tomato Restaurant Aggregator and Delivery Application | *MERN Stack* tomato-app-4thl.onrender.com/

- * Implemented a responsive user interface using **React**, featuring a dynamic cart and seamless order placement. Enhanced UI/UX with libraries like **Tailwind CSS** and **Material UI**.
- * Built a robust server using **Node.js** and **Express**, handling RESTful API endpoints for efficient data management and integration.
- * Utilized **MongoDB** and **Mongoose** for efficient data storage and retrieval, ensuring fast and reliable data operations.
- * Implemented secure user authentication with **bcrypt** for password hashing and **JWT** for session management, ensuring user data security.
- * Integrated **Stripe** for secure payment processing, enabling users to complete transactions safely and efficiently.
- * Developed an admin interface for managing food items and order tracking, optimizing the operational workflow and enhancing user experience.
- * Frontend UI : <https://tomato-client-khaki.vercel.app>

Musicia | *Next.js, Shadcn, Material UI*

- * Designed and developed an intuitive user interface using **Next.js**, enhancing the overall user experience with fast load times and SEO optimization.
- * Implemented responsive design principles using **Material UI**, ensuring compatibility across various devices and screen sizes.
- * Leveraged **Shadcn** for component design, providing a consistent look and feel throughout the application while maintaining accessibility standards.
- * Created dynamic course listings, enabling users to view course details, pricing, and enrollment options seamlessly.
- * Live : <https://music-school-one-sooty.vercel.app/>

TECHNICAL SKILLS

Programming Languages: C, C++, Python, JavaScript, HTML, CSS, PHP

Frameworks and Libraries: React, Nextjs, Nodejs, Expressjs, Tailwind CSS, Material UI, Shadcn

Databases: MongoDB, MySQL

Coursework: Data Structures and Algorithms, Operating Systems, Object-Oriented Programming

Soft Skills: Problem Solving, Self-learning, Presentation, Adaptability, Teamwork, Leadership

ACHIEVEMENTS

- * Got **2nd** rank in Engineer's Day Coding Competition organized by REC Sonbhadra.
- * Mastered over **400+** DSA problems on various coding platforms, attaining a Code360 rating of **1687**.
